PUBLIC HEALTH INFORMATION

We know that many people in our community are concerned about the spread of the coronavirus (COVID-19). We want to assure you that we are doing all we can to protect our patrons, students, staff, and artists. Northern Stage has instituted additional professional cleaning of our facilities, and staff members are cleaning frequently-touched surfaces before and after performances, events, and education classes. We are also actively encouraging sick employees to stay home and emphasizing following best health practices. That being said, we need your help!

Please stay home if you have symptoms associated with COVID-19 (fever, cough, or difficulty breathing) until you have been symptom-free without the use of symptom-reducing medication for at least 24 hours. Please also stay home if you have been in close contact with anyone who has these symptoms, have been to an infected area in the past two weeks, or have been told by a medical professional to self-isolate. If you fall under any of these categories, we will bend our exchange policy and let you exchange to another production with no exchange fee. There will still be an upgrade fee if you exchange into a more expensive production (i.e. from Frozen, Jr. to Million Dollar Quartet).

Keep our community safe by following the current recommended precautions:

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Cover your coughs or sneezes with a tissue and then throw the tissue in the trash; if tissues aren’t available, cough or sneeze into the inside of your elbow. Then wash your hands as recommended above.
- Use elbow or first bumps instead of handshakes and hugs.
- Clean and disinfect frequently touched objects and surfaces.

We will continue to monitor the developments and will follow public health officials' guidelines and recommendations.
